

The Gallery exhibitions aim to strike a balance between open group shows, invited exhibitions, industry related events and annual Association shows such as The Awards. Alex believes that the Association Gallery provides a very important function as the visual showcase for the work of the members and would like to see a continued rise in its profile. She is always eager to discuss the Gallery and any ideas for future shows.

JANICE NEMITZ

Membership Secretary/Office Manager

Originally from Zimbabwe, Janice moved to Britain in 1991 and found a secretarial position in a delicatessen distribution company. Sick of sticky buns, she joined the Association staff in October 1992 as Receptionist and secretary to the Executive Director, providing clerical and secretarial support to all other departments when necessary.

After two years in this position she recently took on the responsibility of Membership Secretary. She will be working with the Membership Committee on ways to increase current membership figures and will be happy to answer any enquiries concerning membership.

In addition to these duties she is also the office manager, working closely with Valerie and Gwen to ensure the smooth running of the office, as well as liaising with the Association's out-of-town accounts department.

MICHELLE DEMERS

Events Co-ordinator

A native of Canada, Michelle Demers moved to England in 1992 and soon landed her first job on the island with the Association, bringing to her position

extensive travel experience, a varied administration background, a B.A. in Women's Studies (minor in Art and Design), and the experience of having exhibited in Canada as a photographic artist. She also claims some writing talents and has written for *Image* (and a small circle of sympathetic friends).

For the past two years she has served as the 'Events Co-ordinator,' a rather vague term for producer of workshops and related social events, as well as co-ordinator of the SUN exhibition. Michelle has succeeded in putting these programmes back into the black, bringing new stability and status to her areas. For 1995, Michelle would like to see SUN continue to grow in stature, and would like to see the workshops boldly go where no one has ever gone before; having developed and taught the hugely successful 'Lateral Thinking' workshops in 1994, she will be presenting their sequels in 1995.

ANNA BAILEY

Education & Services Manager

Anna joined the Association as the Education and Services Manager in November of last year. Her admin grounding was acquired in the Science and Engineering Research Council,
